COMPETITION ARTWORK TEMPLATES & GUIDELINES

electric canvas art competition

COMPETITION ARTWORK GUIDELINES

A previously wrapped EV will be on display outside The Current Gallery at Baha Mar during the month of February as a visual example of what judges are looking for in this competition.

Original or existing artwork: Submissions can be original or existing works developed by the submitting artist, created in any medium, including painting, drawing, collage, printmaking, photography, mixed media, or digital illustration.

Two-dimensional: The artwork must be two dimensional

Translatable to digital format: The artwork

must be capable of being scanned, photographed, or recreated in digital format and uploaded to the competition entry page.

Consideration of vehicle form: Artists should be open to minor layout adjustments to ensure the artwork flows across doors, curves, windows, and panels of the car. A high resolution version of the selected concept and final template will be produced for the wrapping of the vehicle by the competition organisers, it is not required for entry purposes.

Each individual artist is limited to THREE entries in total.
